

Narrative Intelligence

AAP Punjab Digital War-Room for Real-Time Opponent Ad Intelligence

Track every opponent ad - Decode the narrative - Counter in minutes

Narrative Intelligence is a single-screen war-room that watches every active ad run by AAP's Punjab opponents - BJP, Congress and SAD - on the Meta Ad Library, around the clock. Claude AI reads each ad to decide who it attacks, which party is behind it and what it claims, then hands the team spend tracking, threat ranking and ready-to-post counters - all in one place.

Opponent parties watched live

24/7

Always-on auto monitoring

2-Way

Against vs Pro-AAP spend

100%

Ads archived forever

WHAT IT DOES

- ▶ **Live Opponent Tracking** - Every active BJP, Congress and SAD ad from Meta, auto-refreshed every 6 hours.
- ▶ **AI Reads Every Ad** - Claude tags each ad's stance (for or against AAP), sponsoring party and narrative - in Punjabi and Hindi.
- ▶ **Damage Radar** - Ranks the most dangerous anti-AAP ads first, so the team hits the real threats.
- ▶ **Spend Tracker** - Shows how much opponents spent attacking vs promoting AAP, party-wise and day-by-day.
- ▶ **Instant Counter** - One click turns any opponent ad into a ready Hindi rebuttal and a full strategy brief.
- ▶ **Permanent Archive** - Saves every ad forever - even the ones opponents quietly delete - with one-click Excel export.

WHY IT MATTERS

- ▶ **See the Whole Battlefield** - The entire opposition's ad activity on one screen, around the clock - nothing missed.
- ▶ **Respond in Minutes** - Answer a damaging ad with a data-backed Hindi counter in minutes, not hours.
- ▶ **Follow the Money** - Know exactly where opponent rupees are going - and expose it to leadership and press.
- ▶ **Never Lose Evidence** - Full history of every ad on demand, including deleted ones - proof whenever needed.
- ▶ **One Tool, Not Five** - Replaces 4-5 costly tools and an analyst team with one affordable, self-hosted system.
- ▶ **Built for AAP Punjab** - Custom-made for the 2027 fight, fluent in Punjabi and Hindi - not a generic foreign tool.

THE BOTTOM LINE

From watching to winning: the opposition spends crores to set the narrative - this tool lets AAP read it, expose it and out-message it the same day.

Ready now: live and running on a secure server, monitoring Punjab opponents 24/7 - ready to brief the team from day one.
